

Wave V Medications-Home Exam

Number of observations: 11,105

Source of the prescription medication - reported from the label or from memory		H5MEDSRC	char 8
4,813	1	label	
2,477	2	memory	
3,815	.	not applicable	

Therapeutic Classification code - Set #1		H5SET1	char 11
7,289		unspecified	
3,727		not applicable	
0	996-996-996	respondent refused to report medication(s)	
1	998-998-998	classification of the medication was impossible	
88	999-999-999	respondent reported taking a prescription medication(s), but specific medication(s) not reported	

Therapeutic Classification code - Set #2		H5SET2	char 11
940		unspecified	
10,165		not applicable	
0	996-996-996	respondent refused to report medication(s)	
0	998-998-998	classification of the medication was impossible	
0	999-999-999	respondent reported taking a prescription medication(s), but specific medication(s) not reported	

Therapeutic Classification code - Set #3		H5SET3	char 11
78		unspecified	
11,027		not applicable	
0	996-996-996	respondent refused to report medication(s)	
0	998-998-998	classification of the medication was impossible	
0	999-999-999	respondent reported taking a prescription medication(s), but specific medication(s) not reported	

Therapeutic Classification code - Set #4		H5SET4	char 11
20		unspecified	
11,085		not applicable	
0	996-996-996	respondent refused to report medication(s)	

0	998-998-998	classification of the medication was impossible
0	999-999-999	respondent reported taking a prescription medication(s), but specific medication(s) not reported

Type of OTC medication taken in the past 24 hours (Q069/Q070)		H5OTC24	char 8
819	1	OTC aspirin-containing medication (Q069)	
854	2	OTC anti-inflammatory medication (Q070)	
9,432	.	not applicable	

FLAG indicating this medication is an antihypertensive		H5EAHT	char 8
8,110	0	no	
852	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an antihyperlipidemic		H5ECMED2	char 8
8,746	0	no	
216	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an anti-diabetic		H5ECMED	char 8
8,573	0	no	
389	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this is an OTC medication taken in the past 24 hours, that is either an NSAID or Salicylate.		H5ECRP1	char 8
7,289	0	no	
1,673	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	

88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported
----	----	--

FLAG indicating this is a prescription medication taken in past 4 weeks, that is either an NSAID or Salicylate. Or, it could also be any oral medication that contains NSAID or Salicylate as an active ingredient.		H5ECRP2	char 8
8,657	0	no	
305	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an anti-inflammatory COX-2 inhibitor		H5ECRP3	char 8
8,947	0	no	
15	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an anti-inflammatory inhaled corticosteroid		H5ECRP4	char 8
8,930	0	no	
32	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an anti-inflammatory corticotropin or glucocorticoid		H5ECRP5	char 8
8,893	0	no	
69	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an anti-inflammatory anti-rheumatic or anti-psoriatic		H5ECRP6	char 8
8,923	0	no	
39	1	yes	

2,054	.	not applicable
1	98	medication could not be classified
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported

FLAG indicating this medication is an anti-inflammatory immunosuppressive agent or immunosuppressive monoclonal antibody		H5ECP7	char 8
8,914	0	no	
48	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an anti-inflammatory of any type		H5ECP8	char 8
6,806	0	no	
2,156	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is a narcotic		H5ENARC	char 8
8,686	0	no	
276	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an antidepressant psychotherapeutic combination		H5EADCMB	char 8
8,962	0	no	
0	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an antidepressant miscellaneous antipsychotic agent		H5EADMSC	char 8
8,805	0	no	

157	1	yes
2,054	.	not applicable
1	98	medication could not be classified
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported

FLAG indicating this medication is an antidepressant selective serotonin reuptake inhibitor		H5EADSRI	char 8
8,546	0	no	
416	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an antidepressant tricyclic		H5EADTRI	char 8
8,902	0	no	
60	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an antidepressant monoamine oxidase inhibitor		H5EADMOI	char 8
8,961	0	no	
1	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an antidepressant phenylpiperazine		H5EADPHE	char 8
8,903	0	no	
59	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an antidepressant tetracyclic		H5EADTET	char 8
--	--	----------	--------

8,953	0	no
9	1	yes
2,054	.	not applicable
1	98	medication could not be classified
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported

FLAG indicating this medication is an antidepressant selective serotonin norepinephrine reuptake inhibitor		H5EADSNR	char 8
8,820	0	no	
142	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an antidepressant of any type		H5EADANY	char 8
8,118	0	no	
844	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an antipsychotic		H5EAPS	char 8
8,866	0	no	
96	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an anxiolytic, sedative or hypnotic		H5EASH	char 8
8,590	0	no	
372	1	yes	
2,054	.	not applicable	
1	98	medication could not be classified	
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported	

FLAG indicating this medication is an anticonvulsant		H5EACO	char 8
--	--	---------------	--------

8,566	0	no
396	1	yes
2,054	.	not applicable
1	98	medication could not be classified
88	99	respondent reported taking prescription medication(s), but specific medication(s) not reported

Total number of prescription medications taken in the past 4 weeks		H5MEDTOT	num 8
10,972		range 0 to 24	
26	.	not applicable	
107	999	respondent reported taking prescription medication(s), but specific medication(s) not reported	

Total number of prescription medications that were reported from the label		H5MEDLAB	num 8
8,251		range 0 to 24	
2,747	.	not applicable	
107	999	respondent reported taking prescription medication(s), but specific medication(s) not reported	

Total number of prescription medications that were reported from memory		H5MEDMEM	num 8
8,251		range 0 to 23	
2,747	.	not applicable	
107	999	respondent reported taking prescription medication(s), but specific medication(s) not reported	

Total number of prescription medications that were entered manually by the examiner		H5MEDMAN	num 8
8,251		range 0 to 7	
2,747	.	not applicable	
107	99	respondent reported taking prescription medication(s), but specific medication(s) not reported
