# Parents (2015-2017) Wave 1 Parent Family Roster

**Title**

Parents (2015-2017) Wave 1 Parent Family Roster

## Abstract

The parent data files contain social, demographic, behavioral, and health data collected in 2015-2017 on a probability sample of Add Health parents who were originally interviewed in 1995 and coincide with Wave V of Add Health. Data for 2,013 Wave I parents, connected to 2,244 Add Health respondents, are available. Additionally, 988 current spouse/partner interviews are available. These data can be linked with Wave I parent data, and corresponding Add Health respondents at Waves I – V. Includes weight files.

Variables: 71

Observations: 9,458

## P_LVLFLG - SUBSET FLAG FOR PARENT-LVL ROSTR-P2

| Type | Code |
|---|---|
| Measurement Unit | numeric |
| Description | Note: Data for the Parent Study was collected from parents of Add Health Sample Members. The data is being released, however, organized by the AID of the Add Health Sample Member. If a given parent has more than one child who participated in Add Health, that Parent's record will appear more than once in the Parent2 and SP2 files. Likewise the roster files are repeated for each Add Health Sample member belonging to the parent. If users prefer to use a roster file that contains only one roster per Wave 1 Parent, they can use P_LVLFLG=1 as a ⬚subsetting⬚ condition. |

### P_LVLFLG - SUBSET FLAG FOR PARENT-LVL ROSTR-P2

| Type | Code |
|---|---|
| Measurement Unit | numeric |

| Description | Note: Data for the Parent Study was collected from parents of Add Health Sample Members. The data is being released, however, organized by the AID of the Add Health Sample Member. If a given parent has more than one child who participated in Add Health, that Parent's record will appear more than once in the Parent2 and SP2 files. Likewise the roster files are repeated for each Add Health Sample member belonging to the parent. If users prefer to use a roster file that contains only one roster per Wave 1 Parent, they can use P_LVLFLG=1 as a ⬚subsetting⬚ condition. |

## P_LVLFLG - SUBSET FLAG FOR PARENT-LVL ROSTR-P2

| Type | Code |
|---|---|
| Measurement Unit | numeric |

| Description | Note: Data for the Parent Study was collected from parents of Add Health Sample Members. The data is being released, however, organized by the AID of the Add Health Sample Member. If a given parent has more than one child who participated in Add Health, that Parent's record will appear more than once in the Parent2 and SP2 files. Likewise the roster files are repeated for each Add Health Sample member belonging to the parent. If users prefer to use a roster file that contains only one roster per Wave 1 Parent, they can use P_LVLFLG=1 as a ⬚subsetting⬚ condition. |
